

Content Assets for your PMO

Processes, Templates, Dashboards, Learning Resources

BOT International
Product Overview

Processes On Demand

Processes On Demand is a PMO Content Asset solution that is used worldwide in PMOs of all shapes and sizes.

Value Proposition:

Quality

Longevity of value and higher quality over vendor PM templates toolkits and PM website offerings.

Time

Installs in minutes, can be fully setup in a day.

Cost

Attractively priced, well below comparable alternatives.

Risk Avoidance

Large, well established customer base, used with leading EPM/PPM tools and applications.

A Foundation for Organizational Project Management

Processes On Demand can be installed in minutes and fully set up in a day. It reduces the time and costs required to setup and manage a PMO. It will help you fully use your existing IT infrastructure, project management tools, and share your existing project management knowledge. It enables workplace mentoring, training, and continuous process improvement as well as reduces project management vendor and consultant training costs.

Key features include:

- Easy setup and customization
- Browser based, intuitive user interface
- Ready to use PMO content
- Project management processes and guidance
- PM/SDLC template library
- Tips, techniques, and learning resources
- Process builder module for additional best practices
- PMO dashboards (Summary, Gantt, Cost, Risk)
- Common PMO policies
- Integration to PPM tools and collaboration platforms
- Features for on-going administration
- Documented Installation and Administration Guides
- No-charge onsite setup program
- Unlimited internal usage (no per user licensing)

Fast Results

Processes On Demand brings immediate project management capabilities to your organization creating lasting productivity gains and long-term business value. It is an intranet/LAN ready HTML based PMO Content Asset framework that enables PMOs of all shapes and sizes to rapidly set up, use, and continuously improve upon their core processes and best practices.

Customer Testimonials:

“As a new CIO, Processes On Demand enabled us to establish processes for Governance and Portfolio Management, both in need of refreshing, creating a strategic relationship and exciting discussions between IT and the operating units.” -- Chief Information Officer

“We had a Project Management Methodology manual, but it was not usable and quickly became out of date. Processes On Demand provided us with a live process that saves time, promotes skills and enables us to use and improve upon what we already know and have.” -- Director Project Management

“Processes On Demand enabled our only PMP to set up our virtual PMO providing valuable project management processes and training at a fraction of the costs of other alternatives.” -- IT Director

“Processes On Demand enabled us to rapidly setup our project management process and portfolio management dashboard. The setup process was a snap and our BOT implementation consultant provided tremendous insights and recommendations to get our PMO off to a great start. I strongly recommend Processes On Demand for every PMO or IT Project Management Team.” -- PMO Manager

“Processes On Demand enables us to speak a common language, follow a common process, and access a singular framework of PMO best practices and supporting content. Kudos to BOT for providing this practical PMO framework of content.” -- Enterprise PMO Manager
